**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 21,22,32 & 33 are rejected under 35 U.S.C. 102(b) as being anticipated by Gwilliam et al. (US Patent No. 5,385,020). Gwilliam discloses a thermoelectric system comprising: a first conduit (11), at least two thermoelectric modules (12) of the type N & P type elements with a first side (13) in thermal contact with fluid conduit and a second side (14), a second fluid conduit (15), a plurality of subunits (26) with two or more layers stacked upon one another to form cross-flow thermoelectric apparatus (31) and furthermore whereby the surface of the heat exchanger (11) of one thermoelectric device (10) mates with a fluid conduit (see column 27-48).

***Allowable Subject Matter***

**Claims 1-20 are allowed over the prior art of record.**

Claims 23-31 & 34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
